

Stained Glass Windows

Background:

Students have been studying the Middle Ages and the influence of the Roman Catholic Church in Medieval Times.

Design Challenge:

Design and construct a model of a freestanding stained glass window that has elements of symmetry in it.

Criteria:

Your stained glass window must

- be free standing.
- have 5 elements of symmetry.
- have at least 4 colors, not counting the black outline.
- be framed with black construction paper.
- have a peak or dome shape.
- have your name at the bottom right corner on the front.

Materials:

- black construction paper
- assorted colors of tissue paper
- glue

Tools:

- scissors
- pencils
- ruler
