

CHECKCARD - Octahedron Net

NETS, PATTERNS & GRAPHICS

By Peter Sellwood

ASSEMBLING THE OCTAHEDRON

- Mark out the octahedron on Checkcard.
- Cut out the net and score the dotted lines.
- Glue tab A and stick in place.
- Fix tabs on the inside of the box.
- Repeat with tabs B and C.
- Tabs D and E are for the lid. You could design these tabs longer, with a slit. Like the one you made for the postcard wallet on Card 3.
