

Shapes All Around Us

Background: Shapes are all around us. We can find shapes in our environment. There is not just one shape that makes up our world, there are many including triangles, squares, rectangles, circles, ovals, and diamonds. There are even more than that!

Challenge: Using the computer's drawing program, create a picture made from different shapes. You will share your work.

Criteria: You must use the computer to make your shapes.
You must use circle, square, rectangle, and triangle shapes.
The shapes must be put together as a complete picture.
(All objects need to relate in the picture- example: a goat, a swimming pool and a volcano don't go together to make a complete picture.)
Your picture needs to have color done on the computer.
Your name must be on the page.

A Crown

Materials: Shape books
Computer
Paper

Target SOL Objectives: Math K.13

Target STL Objectives: 8

Supporting SOL Objectives:

Math K.1, K.14, K.15, K.16, K.17

Science K.1, K.4

English K.1, K.2, K.3, K.6, K.11, K.12

Supporting STL Standards: 3, 9, 10, 11, 17
